Frame Rate vs. Integration Time (Block Grab Mode)

Greater than 1000 fps read rate in block grab mode for:
1) Integration Times less than 448us
2) Integration Times 650us to 800us

USB Writes to PC occur after integration for integration times less than 650us

USB writes to PC occur during integration for integration times greater than or equal to 650us (boosts frame rate for integration times > 650us)
